From (Name) R. Littlehailes Esquire, M.A., M.L.C.,

(Designation) Director of Public Instruction,

To The Secretary to the Government of Madras,

Law (Education) Department.

Sir, Through the Accountant-General, Madras.

I have the honour to request that in the circumstance explained hereunder Government will be pleased to sanction the employment of an additional laboratory attender on Rs. 20-1-35 per mensem in the Government College, Mangalore, with effect from the 1st July 1922.

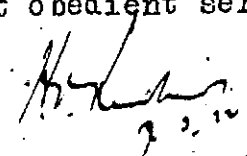

2. There are 3 Laboratories-Physics, Chemistry and Natural Science for the college classes and 2- Physics and Chemistry ^{and Botany} for the High School. The number of attenders sanctioned for the college is only 3 and their time is fully occupied with work in the college laboratories. As there is

o attender for the High School Laboratories, considerable difficulty is experienced by the teachers concerned in arranging for demonstration and practical work and in keeping the laboratories in order and much of their time has to be devoted to work which can well be done by attenders. I therefore recommend that an attender may be sanctioned for the High School

3. The extra expenditure in 1922-23 will be Rs. 160 and I request that provision for the purpose may be inserted in the Budget Estimate for 1922-23.

4. The inferior establishment sanctioned for the college consists of 3 attenders- 2 ^{permanent} ~~peons~~ and 1 temporary on Rs. 12 each per mensem and 3 peons, 1 on Rs. 10 and 2 on Rs. 9 each

I have the honour to be,
Sir,
Your most obedient servant,

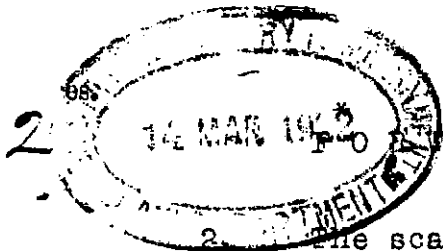

Director of Public Instruction

2. The scale of inferior establishment, referred to in para 4 of the Director's letter, has been checked and found correct.

3. There is no audit objection to the proposal being sanctioned by Government.

4. Necessary provision of funds should be -- sanctioned before the extra expenditure involve by the proposal is incurred.

(B)

One of the three existing laboratory attenders in the Govt. College, Mangalore, is temporary and his employment was sanctioned in 1920 when ~~for~~ instruction in groups of the Intermediate course was commenced. Excluding this Natural Science laboratory attender there are two attenders one for each of the Physics and Chemistry laboratories of the College. In the Coimbatore and Thellicherry Colleges also there are only two laboratory attenders, apparently one for Physics and the other for Chemistry, and there is no separate laboratory attender for the High School Dept.

2. It is stated that in the Mangalore College, "considerable difficulty is experienced by the teachers concerned in the High School Dept. in arranging for demonstration and practical work and in keeping the laboratories in order and much of their time has to be

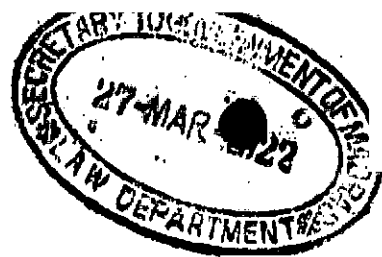

attenders" In the present state
 financial stringency it seems that
~~exactly~~ ^{reasonably} ~~expected~~ may be expected to
~~be without the additional cost of~~ ~~the~~
~~abolishment of one of the three~~
 of the three attenders in the college
 dept. may be partly ^{utilized for the laboratory} ~~expended~~ in the
 High School Dept.

For orders whenever the proposal
 may be negatived. It is also too late
 to provide funds for the next year.

622 I agree. Further I think
 that the High School Students
 should be trained in keeping
 the laboratory in order. In
 Govt. schools there is too great
 a tendency to ~~keep~~ keep the
 Students away from manual work.

W
 24/3/12

The proposal is not unreasonable
 the teachers with the assistance of
 pupils should be able to keep up the
 laboratory quite well
 So in the College Dept - the students being
 few, the Asst & Students should be able to keep this
 up in all Government Colleges - 22/3/12

A draft order is submitted.

Mis.

The Govt. are unable to sanction the Director's proposal for the employment of an additional laboratory attendant in the ~~Government~~ Govt College, Mangalore. If necessary, ^{the services of} one of the three attenders in the College dept. may ^{also} be ~~for~~ utilized ^{work} for laboratories in the School Dept.

consider that the teachers who are assistants of pupils in the School Dept. should be able to keep up the laboratories quite in order.
